

5.4. HEAVY RAIN

5.2.16 Drivers must reduce their speed below the permitted limits so that they can brake and stop within the section separating them from the vehicle in front and in sufficient time to comply with stop/priority signs.

5.5. SNOW, ICE AND HAIL

5.2.17 Drivers must reduce their speed below the permitted limits so that they can brake and stop within the section separating them from the vehicle in front and in sufficient time to comply with stop/priority signs.

5.2.18. If snow and/or ice accumulate on the ground, the Service Provider/Autoproducer must ensure that vehicles equipped with the tools necessary to protect the roadholding of their own vehicles are available. Pushback vehicles with sufficient power to safely push aircraft when the ground is contaminated with snow or ice must also be made available by the Service Provider/Autoproducer.
