

Aeroporti di Roma's Solar Farm at the beautiful Fiumicino Airport is an important milestone in view of the urgent need to further develop the capacity of a facility dedicated to energy efficiency and environmental sustainability.

Today's inauguration is an opportunity to celebrate Italy's leadership in this crucial sector. These are the results that motivate us, the Italian economic system, to invest and persist in research and development of increasingly effective and advanced technologies.

GILBERTO PICCHETTO FRATIN

Minister of the Environment and Energy Security
