

Rome Fiumicino is a superstar in the European airport landscape. The excellence of Italy's main gateway has been confirmed, a showcase worthy of our country's system, also the result of a solid investment policy consistent with the development plans approved by Enac. Congratulations to Aeroporti di Roma - also for the performance of Ciampino Airport -, to its staff and to all the airport sector's operators who contribute daily to maintaining excellent levels of safety and service quality.

PIERLUIGI DI PALMA
